

UK Government Org Chart

Validation and visual overview of an RDF corpus extracted from GOV.UK

Generated 2026-05-16 · forgetmenot/scripts/govuk_report.py

What's in the corpus

Pages under www.gov.uk/government/ describing ministerial roles, the people who hold them, and the organisations they serve were fetched, then templated into per-page Turtle. Each triple is tagged with the page URL it came from, so every fact is traceable to one or more source documents. Reported numbers below are live SPARQL queries against the rolled-up named-graph N-Quads.

Headline counts

Ministerial roles	161
People (current ministers + past role-holders)	1,598
Organisations (departments, NDPBs, etc.)	624
Past Prime Ministers	54
Reified role tenures (historical)	377
Source GOV.UK pages (named graphs)	1,486
Total triples (across named graphs)	19,883

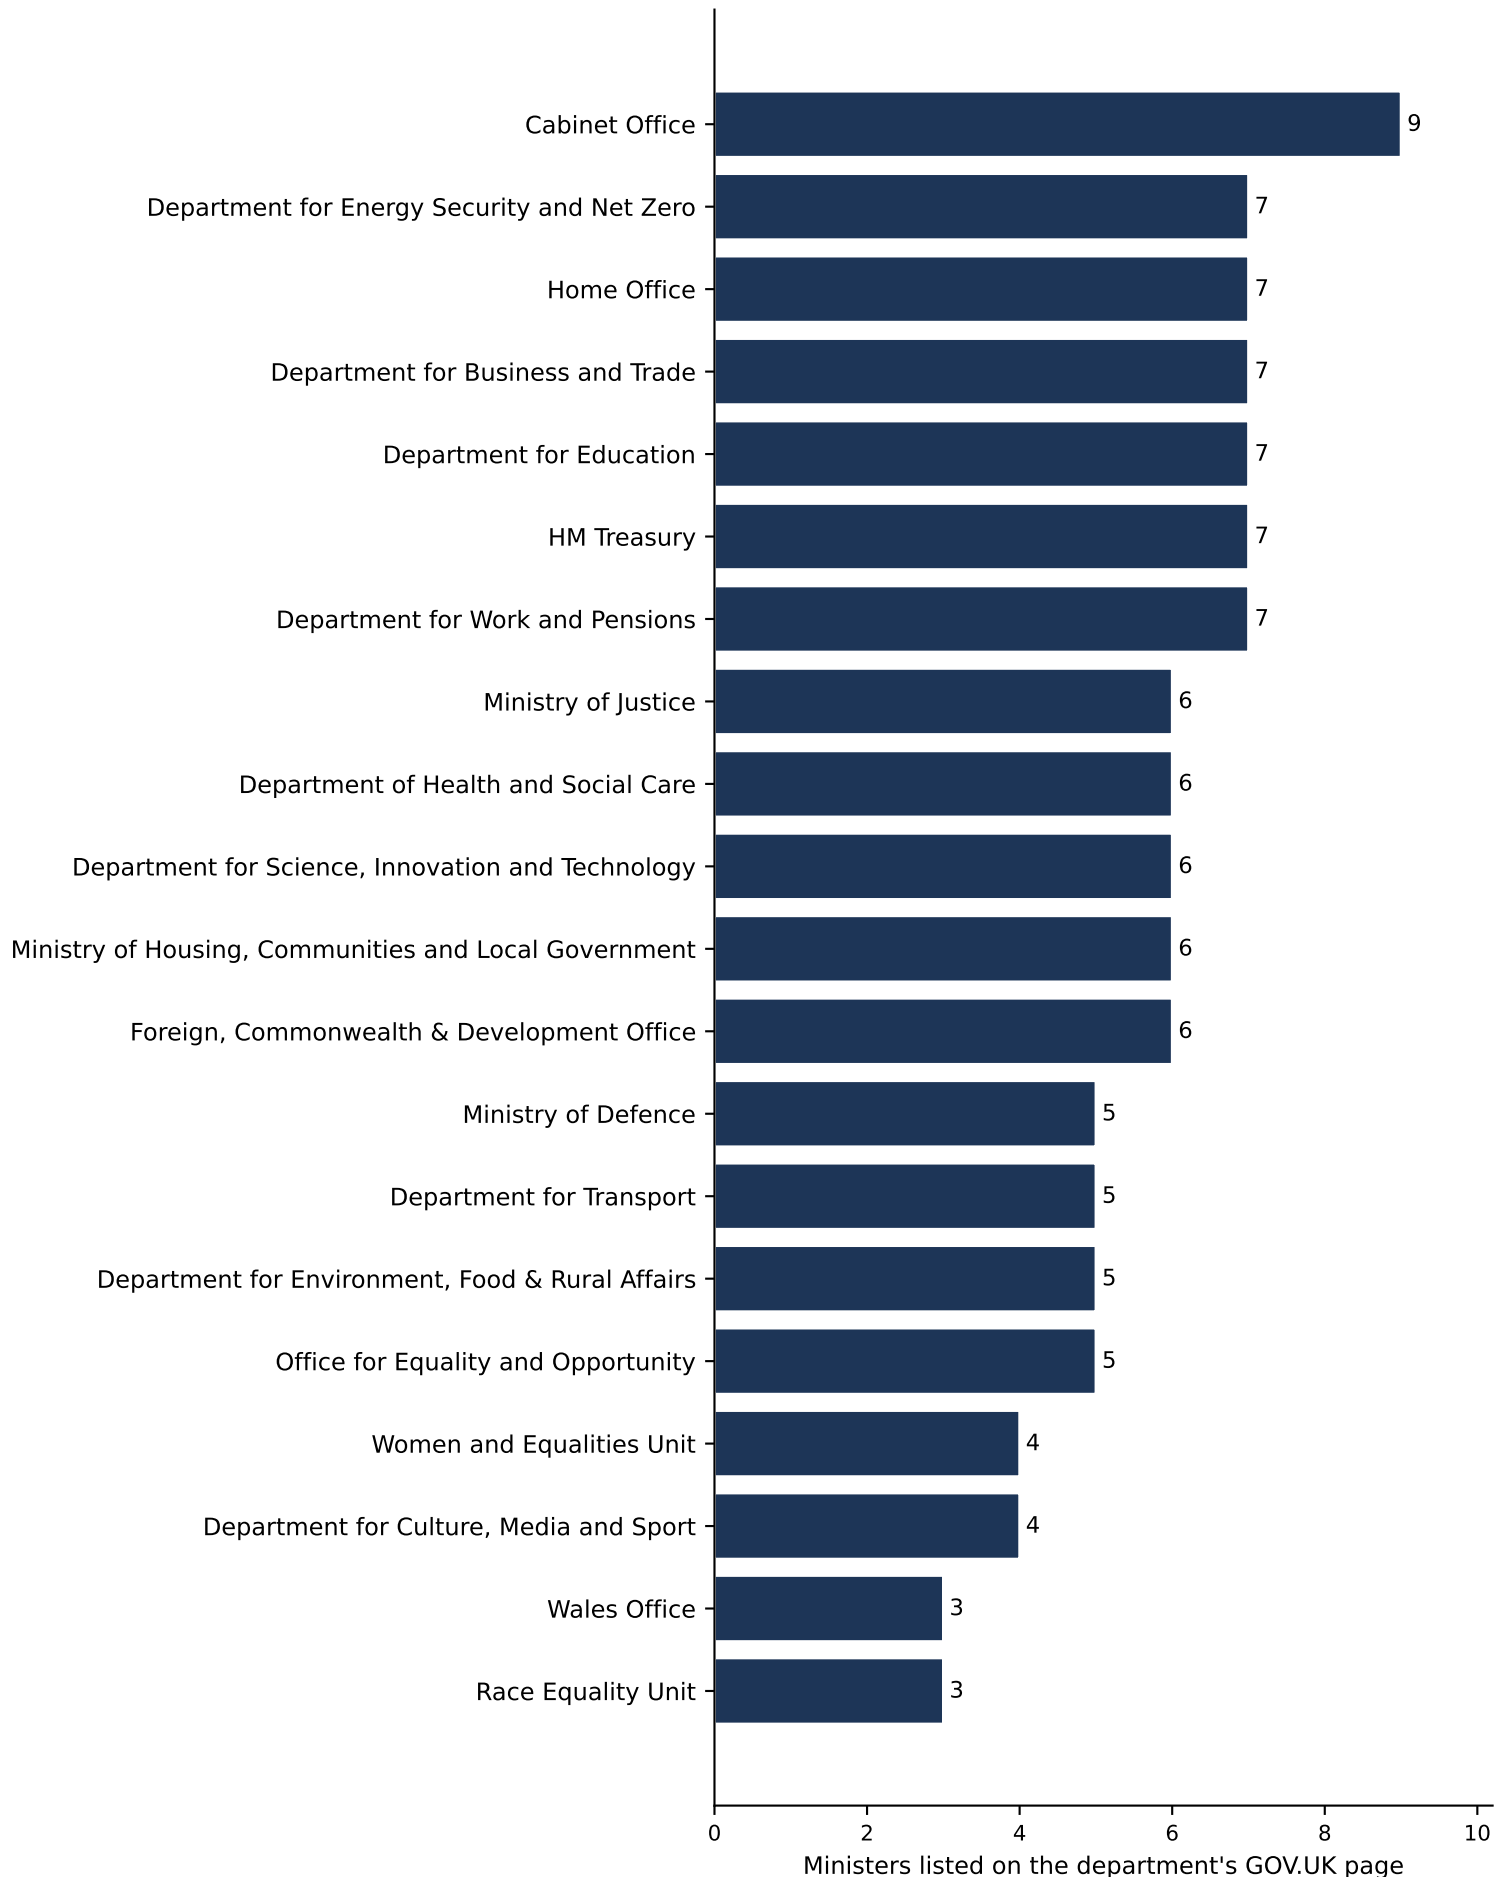

Cross-page consistency

✓	Role page says holder = X, person's own page says X holds something else	0
✓	Organisation page lists person in role, person's own page omits that role	0
!	Ministerial roles with no current holder asserted anywhere	13
•	People holding more than one ministerial role	23

Findings

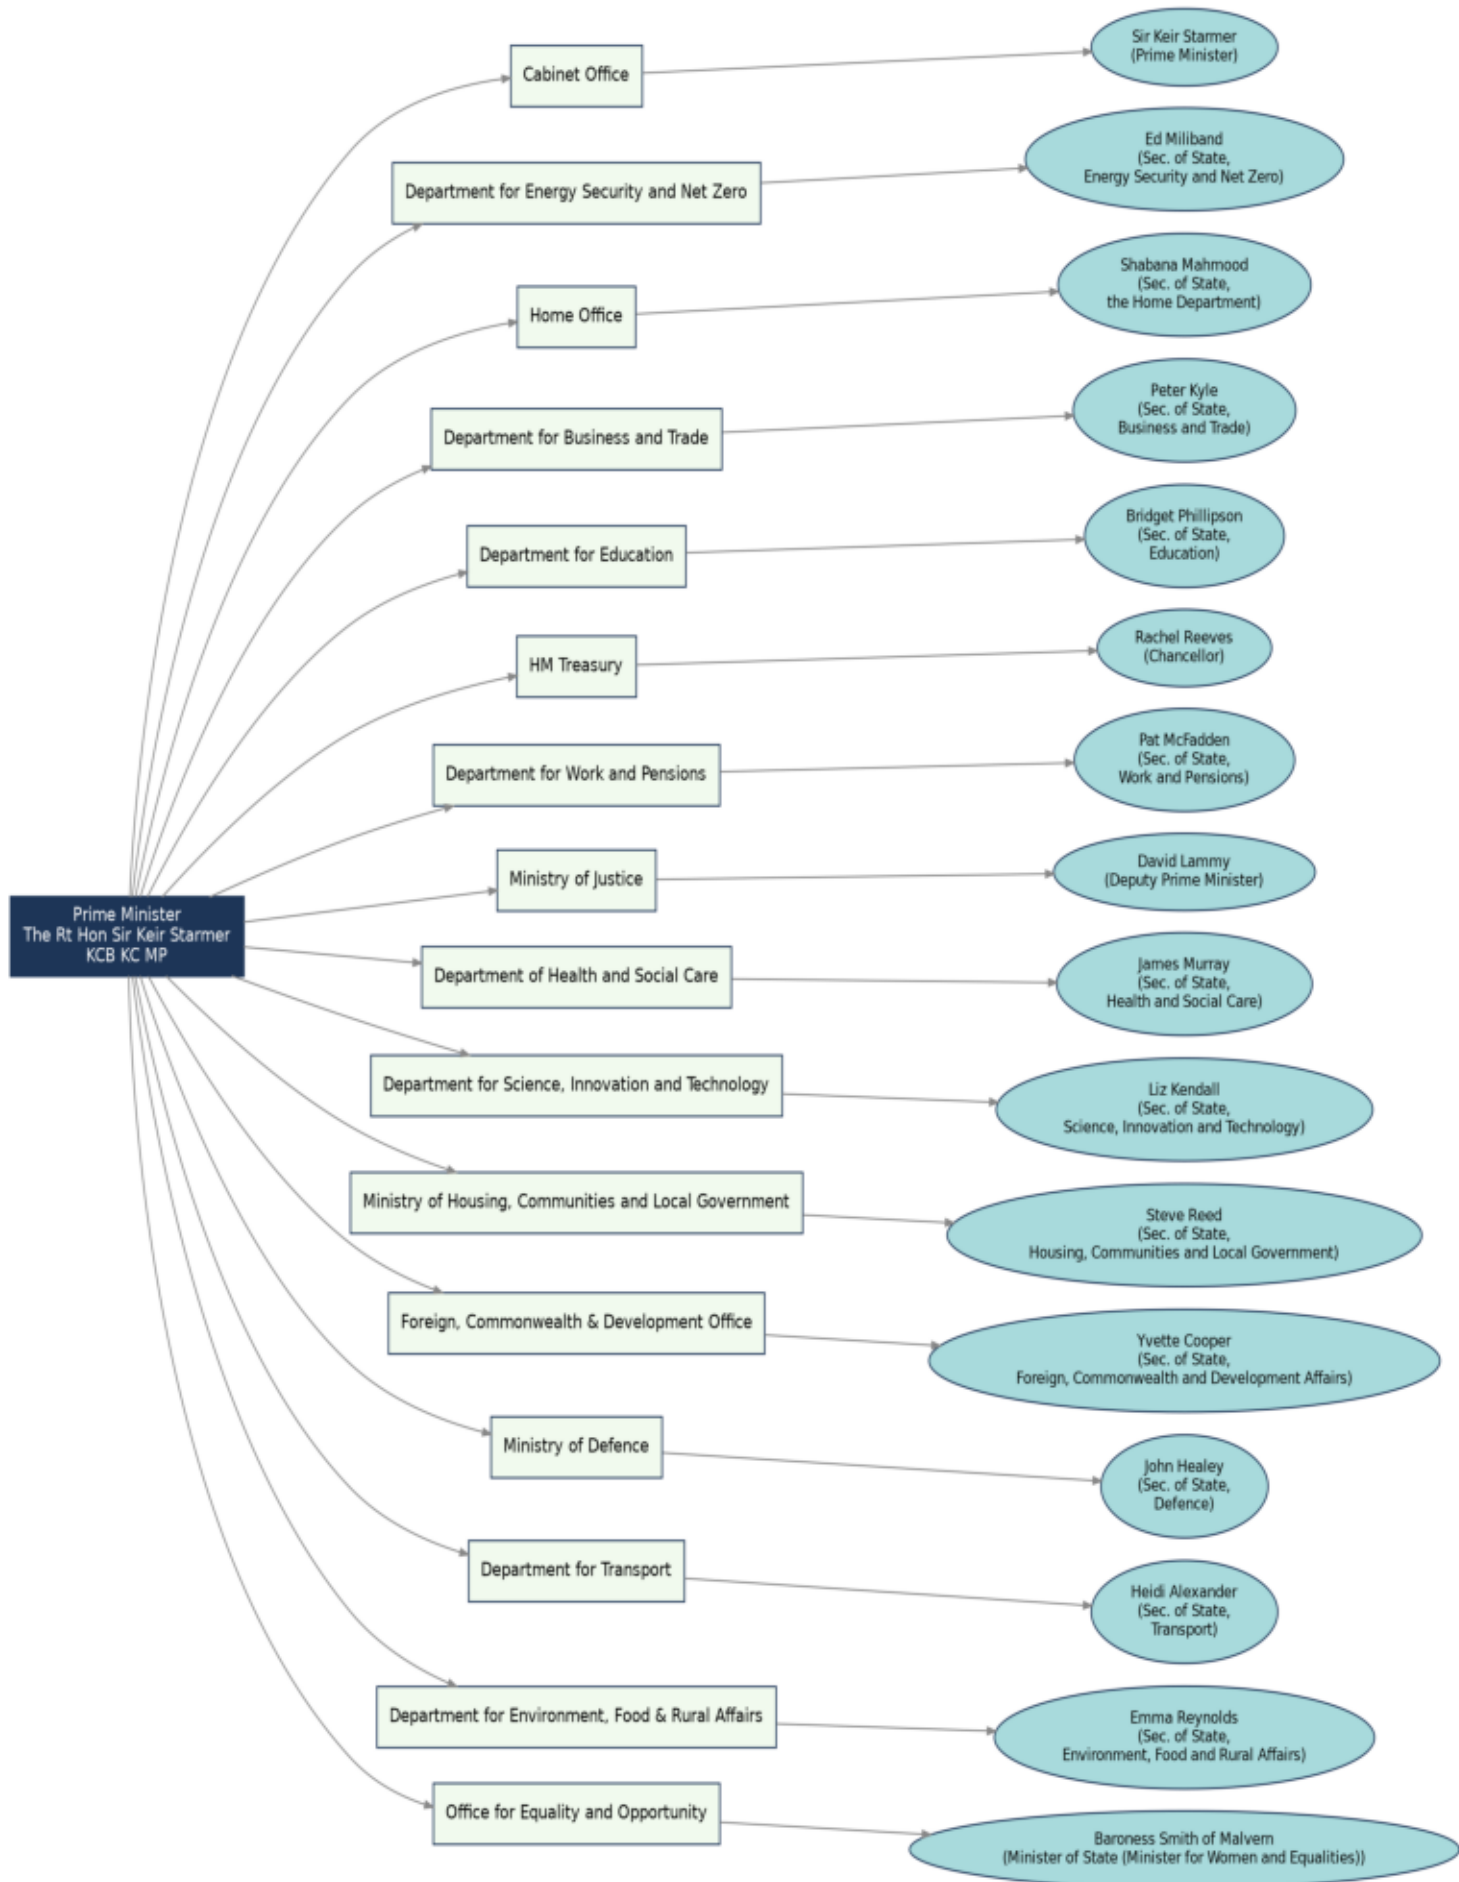

- Role pages and person pages agree on every current holder — no contradictions.
- Organisation pages and person pages agree on every role assignment — no contradictions.
- The roles flagged 'vacant' on this run are Welsh-language (.cy) duplicate URLs whose page markup the English-tuned templates don't fully decode; this is an extractor artefact, not a real vacancy.
- Sir Keir Starmer holds four concurrent roles (Prime Minister, First Lord of the Treasury, Minister for the Civil Service, Minister for the Union), which is the constitutional convention.
- Best-corroborated current-holder triple in the corpus is asserted from 6 distinct GOV.UK pages, demonstrating the value of named-graph provenance for triangulation.

Ministerial headcount by department (top 20)

Source: GOV.UK department pages, 'Our ministers' section. Cabinet Office tops the chart because it houses several minister-without-portfolio roles (e.g., Minister for the Cabinet Office, Paymaster General, Minister for the Constitution).

Cabinet org chart: PM → department → senior minister

Each department is one of the top 16 by ministerial headcount. The named minister is the most senior recognisable role (Secretary of State, Chancellor, etc.) drawn from the role page's 'Current role holder' assertion, reconciled with the department page's 'Our ministers' card.

HM Treasury ministerial team

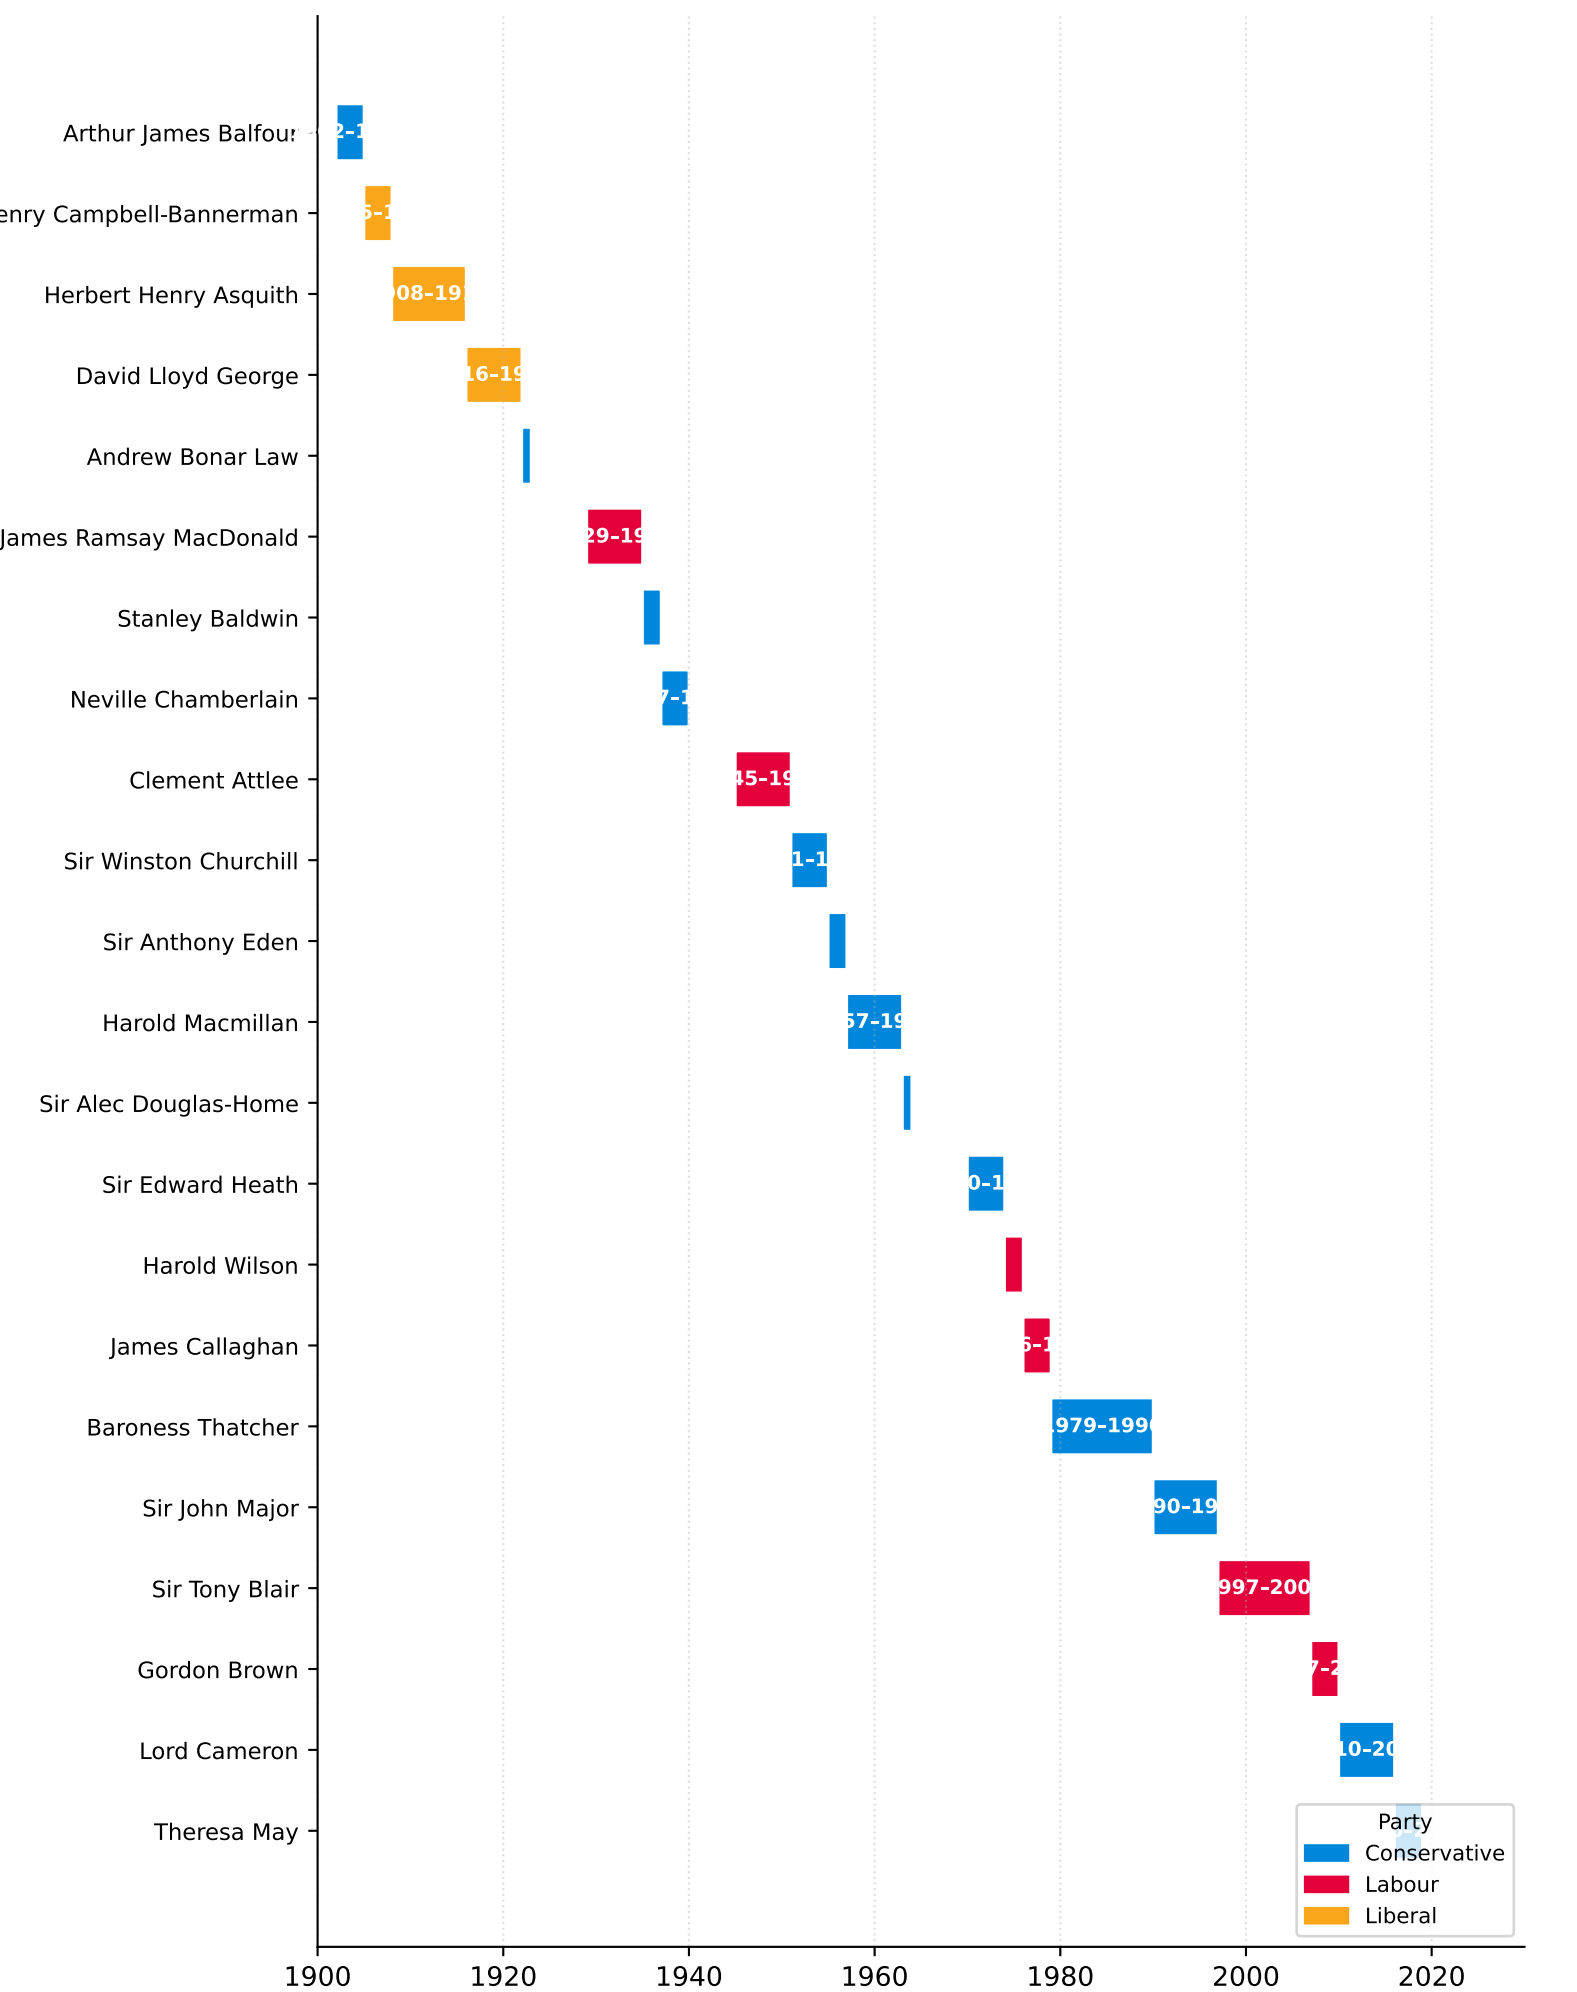

Reconciled across the HMT organisation page, each role page, and each person's own page. 'Sources' counts

Role	Holder	Sources
Chancellor of the Exchequer	Rachel Reeves MP	3
Chief Secretary to the Treasury	Lucy Rigby KC MP	3
Economic Secretary to the Treasury	Rachel Blake MP	3
Exchequer Secretary to the Treasury	Daniel Tomlinson MP	3
Financial Secretary to the Treasury	Lord Livermore	3
Minister of State (Minister for Investment)	Lord Stockwood	5
Parliamentary Secretary	Torsten Bell MP	3

Sample of structured detail: the Chancellor's responsibilities

- Capital markets and listings
- Delivering the government’s growth mission
- Economic security and resilience policy
- Fiscal policy (including presenting the annual Budget)
- Leading on international economic and financial affairs including at the G7 and G20 and acting as the UK Governor of the IMF, EBRD and AIIB
- Ministerial arrangements (in her role as Second Lord of the Treasury)
- Oversight of the monetary framework, including setting the inflation remit, and liaison with the Governor of the Bank of England on monetary policy
- The National Wealth Fund
- UK growth and productivity, including working across government on skills, labour market and migration
- Women in the economy and the gender pay gap

Prime Ministers since 1900 (per GOV.UK Past PM index)

Bars span the years a Prime Minister was in office, coloured by party. Year ranges come from the 'Past Prime Ministers' GOV.UK index card for each holder; the corpus also contains pre-1900 PMs back to Robert Walpole (1721) which are omitted here for legibility.
